Testimonials / Alumni feedback

Anne Smyth, Drover Foods

I was hesitant about investing the time required but the return on the commitment has been invaluable. I started thinking differently about our business. It provided me with the time and space to formulate a deliverable growth plan for Drover Foods. I gained confidence and could positively communicate the vision, strategy and plan to our management team so that we could execute it together. The programme provides a platform to meet other CEOs, all whom have similar experiences and challenges which I found beneficial. I enjoyed the programme immensely and have no hesitation in highly recommending others to do it.
